著書

- 1) Zhong N, Ras ZW, Tsumoto S, Suzuki E (eds.): Foundation of Intelligent Systems, Heidelberg: Springer, 2003
- 2) Inuiguchi M, Hirano S, Tsumoto S (eds.): Rough Set Theory and Granular Computing, Heidelberg: Springer, 2003
- 3) Hirano S, Tsumoto S: A knowledge-oriented clustering method based on indiscernibility degree of objects, in Inuiguchi M, Hirano S, Tsumoto S (eds.): Rough Set Theory and Granular Computing, Heidelberg: Springer, 2003, pp.157-166
- 4) Tsumoto S, Slowinski R, Komorowski J, Grzymala-Busse JW (eds.): Rough Sets and Current Trends in Computing, Heidelberg: Springer, 2004

学術論文

- 1) Tsumoto S: Automated extraction of hierarchical decision rules from clinical databases using rough set model. Expert Systems with Applications 24: 189-197, 2003
- 2) Tsumoto S: Chance discovery in medicine - Detection of rare risky events in chronic diseases -. New Generation Computing 21: 135-147, 2003
- 3) Tsumoto S: Statistical independence as linear independence. Electronic Notes in Theoretical Computer Science 82, 2003
- 4) Tsumoto S: Rule induction with grouping target concepts based on rough sets. Electronic Notes in Theoretical Computer Science 82, 2003
- 5) Hirano S, Tsumoto S: An indiscernibility-based clustering method with iterative refinement of equivalence relations - Rough clustering -. Journal of Advanced Computational Intelligence and Intelligent Informatics 7: 169-177, 2003
- 6) Tsumoto S: Extraction of structure of medical diagnosis from clinical data. Fundamenta Informaticae 59: 271-285, 2004
- 7) Tsumoto S: Mining diagnostic rules from clinical databases using rough sets and medical diagnostic model. Information Sciences 162: 65-80, 2004
- 8) Hirano S, Sun X, Tsumoto S: Comparison of clustering methods for clinical databases. Information Sciences 159: 155-165, 2004
- 9) 安田 晃, 柳樂真佐実, 平野章二, 花田英輔, 津本周作: 医療情報学実習発表会におけるグループ間およびグループ内の評価についての数量化. 医療情報学 24: 25-34, 2004

学会発表

- 1) Tsumoto S: Web based medical decision support system: Application of internet to telemedicine. 2003 Symposium on Applications and the Internet Workshops. Orlando, January 2003

- 2) Hirano S, Tsumoto S: Comparison of proximity measures for temporal medical data analysis. 6th SANKEN (ISIR) International Symposium. Osaka, May 2003
- 3) Tsumoto S: Automated rule induction with grouping target concepts. SPIE Aerosense 2003. Orlando, April 2003
- 4) Tsumoto S: Towards visualization of rules based on rough sets and graphical modeling. SPIE Aerosense 2003. Orlando, April 2003
- 5) Hirano S, Tsumoto S: Comparison of similarity measures and clustering methods for time-series medical data mining. SPIE Aerosense 2003. Orlando, April 2003
- 6) Hirano S, Tsumoto S: Dealing with relative similarity in clustering: An indiscernibility based approach. 7th Pacific-Asia Conference on Knowledge Discovery and Data Mining. Seoul, April 2003
- 7) Tsumoto S: Mining multi-level diagnostic process rules from clinical databases using rough sets and medical diagnostic model. 10th International Fuzzy Systems Association World Congress. Istanbul, June 2003
- 8) Hirano S, Tsumoto S: Indiscernibility-based clustering: Rough clustering. 10th International Fuzzy Systems Association World Congress. Istanbul, June 2003
- 9) 柳樂真佐実, 安田 晃, 孫 暁光, 平野章二, 花田英輔, 津本周作: 病院情報システムの評価に関する解析と考察. 日本医療情報学会第7回春期学術大会. 北九州, 2003年6月
- 10) 安田 晃, 柳樂真佐実, 孫 暁光, 平野章二, 花田英輔, 津本周作: 医療情報学実習における学生行動の定量的分析と考察. 日本医療情報学会第7回春期学術大会. 北九州, 2003年6月
- 11) 平野章二, 津本周作: パス経路の類型化に基づくサッカー試合記録データからの知識獲得. 第17回人工知能学会全国大会. 新潟, 2003年6月
- 12) Tsumoto S: Detecting possibility of complication of diseases using rough set based granulation. 22nd International Conference of the North American Fuzzy Information Processing Society. Chicago, July 2003
- 13) Hirano S, Tsumoto S: Dealing with relatively proximity by rough clustering. 22nd International Conference of the North American Fuzzy Information Processing Society. Chicago, July 2003
- 14) 柳樂真佐実, 安田 晃, 津本周作: コンピュータリテラシ教育の授業方法変更によるコンピュータ不安尺度の変化の検討. 第35回日本医学教育学会大会. 佐賀, 2003年7月
