授業概要			
<p>This course is designed for medical students who one day wish to become doctors. It presents them with English from a wide variety of medical fields and situations, develops their communication skills, and provides them with background in major medical and care concepts. Pertinent medical terminology will be presented in a variety of ways in each unit.</p>			
G I O (一般目標)			
<p>The goal of this class is to systematically build the student's ability to learn and use advanced English in a medical atmosphere. Our goal is for the students to have confidence to present their own thoughts, feelings and opinions in English in a medical situation. The students will combine exposure to medical English with practice in various settings to help them achieve a higher level of proficiency.</p>			
S B O (行動目標)			
<p>The students will study English through the lens of medical English. Vocabulary for medical professionals will be taught and then practiced in a variety of listening and speaking tasks. The students should be able to communicate freely about medically-related topics after they finish this course.</p>
