授業概要			
<p>The first 30 minutes of each class is dedicated to improving listening skills using a TOEIC review book. The students will be challenged to improve their listening ability using exact replicas of TOEIC listening questions. The next 70 minutes of each class is dedicated to listening and speaking practice using a variety of topics. Each class period has a specific theme and students will do a lot of pair work to help sharpen their listening and speaking skills.</p>			
G I O (一般目標)			
<p>This class is designed to get the students talking about Japan and the world. <i>Let's Talk About It</i> introduces high-interest topics through pictures. Then the instructor will guide conversations using targeted questions. The goal is to develop fluency and build vocabulary. We seek to engage the students in relevant conversations to help prepare them to easily and confidently speak English whenever necessary. This class will also include several weeks dedicated to introducing and reviewing the basic concepts of writing, especially in paragraph form.</p>			
S B O (行動目標)			
<p>Speaking: Mastery of key vocabulary through question and answer using the Socratic Method. This class is designed to build and reinforce basic conversational skills. Listening: Students will have many opportunities to practice their listening skills in a supportive, positive, international English environment.</p>
